OSCR LAUNCHES CONSULTATION ON REGULATION OF SCOTTISH CHARITIES

The Office of the Scottish Charity Regulator (OSCR) has launched a consultation into plans to publish all annual reports on its register. Other changes in the way it regulates Scotland's 23,500 charities are also under review.

The consultation document, Targeted Regulation of Scottish Charities: Progressive, Preventive and Proportionate, outlines the OSCR's plans to publish the annual report and accounts of all charities with an income of £25,000 and of all Scottish charity incorporated organisations. It also outlines new plans to encourage charities to only send out paper forms on request and instead to file their annual reports and accounts online.

Currently the OSCR only keeps details of principal contacts for many charities, new plans will allow the development of a database of trustees of Scottish charities. As part of the new strategy to record more details and information, the OSCR plans to develop a serious incident reporting regime which would require charities to report a number of different types of incident including fraud, theft or allegations of mistreatment of beneficiaries.

OSCR's Chief Executive, David Robb, said:

"Our proposals for proportionate, targeted regulation are the result of considerable discussion with charities and other interested parties. Now we want to involve everyone in the conversation and the planning, so that we can ensure that we focus our resources where they are needed."

"Essentially, these measures will ensure that we focus on the right charities in the right way, at the right time and reinforce the public's confidence in the sector. Please give us your views."

The closing date for responses is 24 October 2014.

EUROPEAN FUNDING

THE ERASMUS+ PROGRAMME

This scheme offers a range of funding opportunities for UK organisations actively involved in delivering education, training, youth and sport activities:

1. Education and training funding

As the successor programme to the Lifelong Learning Programme, Erasmus+ will continue to enable UK organisations to access funding for exciting and innovative projects in all areas of education and training.

The following funding opportunities are available for education and training under Erasmus+:

- Mobility projects for higher education students and staff
- Mobility projects for vocational education and training learners and staff
- Mobility projects for adult education
- Joint Master Degrees
- Strategic Partnerships
- Knowledge Alliances
- Sector Skills Alliances
- Jean Monnet Activities

Please note that only organisations are able to apply for education and training funding under Erasmus+. Training opportunities for individuals still exist under Key Action 1, but individuals themselves are not eligible to apply.

Please also note that all Higher Education Institutions (HEIs) must be awarded the Erasmus Charter for Higher Education (ECHE) to be eligible for Erasmus+ funding. Please note that this requirement applies to HEIs only and awards are for the ECHE only, not for programme funding.

2. Youth funding

As the successor programme to the Youth in Action programme, Erasmus+ will continue to ensure that youth organisations and youth services benefit from the new youth strand which is specifically designed to meet their needs.

The following funding opportunities are available for youth under Erasmus+:

- Mobility projects for Young People and Youth Workers
- Strategic Partnerships in the field of Youth
- Structured Dialogue: Meetings between young people and decision-makers in the field of Youth

- Large-Scale European Voluntary Service events
- Capacity Building in the field of Youth

Funding for youth activities under Erasmus+ aims to improve the key competences, skills and employability of young people in the UK, promote young people's social inclusion and well-being, and foster improvements in youth work and youth policy at local, national and international level.

Erasmus+ is open to a wide range of youth organisations and groups working with young people. In general, only organisations are able to apply for Erasmus+ grants but specific allowances will be made for the youth sector to enable informal groups of young people to apply.

3. Sport funding

As the successor programme to the Preparatory Actions for Sport, Erasmus+ allows organisations to access funding for grassroots sport activities.

The following funding opportunities are available for sport under Erasmus+:

- Collaborative Partnerships
- Not-for-profit European Sport Events
- Actions that strengthen the evidence base for policy-making

Projects funded under the Sport Action in the Erasmus+ programme are managed by the European Commission's Executive Agency, like Preparatory Actions were previously, and funding priority will be given to projects that focus on grassroots sports.

Erasmus+ is open to a wide range of organisations involved in sport. The European Commission ran a Sport Infoday in Brussels on 4 February 2014 to inform potential applicants about the funding opportunities available for sport under the new Erasmus+ programme. You can watch a recording of the Sport Infoday on the Executive Agency's website.

Any projects using sports in the context of education and training or youth activities, for example mobility placements for sport apprentices, may still be funded under Key Action 1 and Key Action 2.

Further information and guidance on all of the above programmes are available from the Erasmus+ website.

The deadline for receipt of applications is dependent on the calls from Europe.

PEOPLE'S POSTCODE TRUST – DREAM FUND UPDATE

This scheme provides organisations in Scotland, England and Wales with the chance to deliver the project they have always dreamed of, but never had the opportunity to bring to life. Projects should fall under one of the following categories: Encouraging Healthy Living; Social Enterprise; and Environmental Sustainability.

All applications must come from organisations in Scotland, England or Wales for projects to be delivered in these regions. Organisations are encouraged to collaborate to provide a more efficient service. All applications must, therefore, come from at least two organisations that have joined forces to deliver an innovative project.

One of which must be a registered charity, who will be considered the lead organisation for the project and will enter into a contractual relationship with the Trust in order to deliver the project. The lead contact must be provided from this organisation and they will be the organisation to provide bank account details should the application be successful. They will also be responsible for ensuring that all funds received are distributed in the manner described in the application. The other organisations can be another charity, a voluntary group or a community interest company.

The Trust also provides the People's Postcode Trust – Small Grants Programme.

Grants of between £100,000 and £250,000 are available for projects that will last up to 24 months. Applications for part-funding are accepted.

Please note that organisations that have previously applied for, or received funding from, People's Postcode Trust are eligible to apply as long they have collaborated with at least one other organisation, and adhered to all funding requirements.

The deadline for receipt of applications is 5.30 pm on Tuesday, 30 September 2014.

PEOPLE'S POSTCODE TRUST – SMALL GRANTS PROGRAMME

This scheme makes funding available for projects that advance citizenship or community development in England, Scotland, and Wales to make the UK a better place for both people and nature.

Grants range from £500 to £20,000 for those in Scotland and England and up to £5,000 for those in Wales. The following funding levels apply to specific applicants:

- Applicants that are not formally registered as a charity with OSCR/Charity Commission can apply for up to £2,000 in funding.
- Applicants that are registered with OSCR / Charity Commission and can provide a charity number can apply for up to £20,000 (or £5,000 in Wales) in funding.

As a general guideline, the larger and longer the project the higher the amount it would be considered acceptable to request. The amount requested should be directly related to the strength of the long term outcomes of the project.

The amount of funding requested from the Trust must be more than 10% of the overall project cost.

The following organisations in England, Scotland and Wales are eligible to apply:

- Registered charities (requires a number from Charity Commission or OSCR).
- Charitable Incorporated Organisations (CIO or SCIO in Scotland).
- Constituted voluntary and community groups

COMMUNITY SHARES SCOTLAND

Crowdfunding offers both commercial and non-commercial ventures the opportunity to raise a sum of money by offering shares to people who put forward small amounts of money. Community Shares Scotland connects not-for-profit groups and investors looking to provide money for social good. People buying shares in the projects promoted through the site will recoup their investment through improvements to their community rather than profit. Social businesses can offer interest to be paid on the shares if the profit from trading is sufficient.

Community Shares Scotland hopes it can provide organisations such as community groups looking to save a local shop or start a local food scheme with access to funds.

The programme is scheduled to run for three years and its partners include the Plunkett Foundation,

Co-ops UK and Rocket Science. It is funded by the Big Lottery Fund and Carnegie UK Trust through an award of £800,000.

A series of Community Shares Scotland road shows will take place across Scotland providing local groups with more information about how to get involved. Although dates have not been released yet, information will be available from their website when they are.

EVENT ORGANISERS' GUIDE

The Can-Do guide is an interactive guide to organising community events. Published by the Cabinet Office the guide aims to dispel a raft of inaccurate myths leading, it is hoped, to a surge in community events over the coming year.

RESOURCE EFFICIENT SCOTLAND

This scheme is a Scottish Government funded programme delivered by Zero Waste Scotland. It works to engage Scottish business, the public sector including local authorities and housing associations and third sector organisations on the benefits of using resources more efficiently and to help them implement resource efficiency actions within their organisation.

There are three main elements to the programme:

1. Advice and support service:

(Tel: 0808 808 2268) this service provides free advice, support, training and access to funding to help organisations implement resource efficiency measures.

2. Sector Programmes:

These programmes provide a strategic sector focused approach with activities tailored around specific resource-use 'hotspots'

This area of work involves the development of new resource efficient products and technologies, business models, working

practices and de-centralised renewable energy infrastructure – providing solutions for the sector support and advice services.

BIG DIRECTORY OF SOCIAL INVESTMENT

Social investment is a term used to describe many different forms of finance – like loans, bonds and equity – all of which involve some kind of financial return to the investor, as well as helping to achieve social impact.

The Big Lottery Fund achieves its mission of bringing improvements to communities and people most in need primarily through making grants. But they recognise that there are circumstances when social investment can be the right path to growth and sustainability for third sector organisations.

This directory aims to provide a single source of information that third sectors organisations in Scotland can use to find out what sorts of social investment finance are available to support their social enterprise activities and aspirations.

An Awards ceremony will be held at the Apex Hotel in Edinburgh on 20 November 2014, as part of the SUSE 2014 Conference, to recognise the achievement of the winners.

Nominators are welcome to suggest a candidate for each of the three categories, ie one employer, one employee and one project. Nominations must be for work that is carried out predominantly in Scotland.

- The Innovation Award – a project or programme that takes an innovative approach to employability and disability in the workplace.
