### WREN – NEW PROGRAMME FOR COMMUNITY PROJECTS

WREN is a new scheme which aims to help benefit the lives of people who live close to landfill sites by awarding grants for community, conservation and heritage projects.

WREN are currently amending how they fund community projects which means they will no longer have two separate programmes for Small and Main Grants, and instead will operate a single Community Fund. The new Community Fund Application will be available from their website shortly.

From 2015 WREN will only have one application deadline for each round. Hard copies of the application must be received at WREN House by 5pm on the deadline date. Email and fax applications cannot be accepted.

Applicants should submit their application and supporting documents as soon as possible, as WREN can only consider a limited number of applications in each round and projects are allocated to panels on a first come first served basis, subject to all information being provided.

Applicants should note that they will be informed of the decision date when they acknowledge your application. If your application is not received by 5.00pm on the deadline day your project will automatically be allocated to the next available funding round.

Further information, guidance and details on how to apply to the new Community Fund will be available from the website shortly.

**The deadlines for receipt of applications to the Community Fund will be 5.00pm at WREN House on 18 March, 8 July and 4 November 2015.**

## **BIG LOTTERY – PROGRAMME MONTHLY NEWS/REMINDERS**

### **Awards for All**

General repairs or maintenance to a building is a popular request to Awards for All. While this will be considered, it is something that might have a lower chance of being successful. This is mainly as it is harder to have a strong outcome. Groups can still apply, but ideally they should be made aware that their chances of being successful could be low.

### **Celebrate**

The Celebrate programme was originally planned to run until 12 December 2014; but had to close to applications on 30 May 2014. Fortunately most applicants were aware of this. However, if groups don't know this and are trying to apply for 12 December, I'm afraid these won't be accepted.

### **Growing Community Assets**

There have been a few groups looking to apply to this for 'general' building work. This is very unlikely to be considered due to not meeting all four outcomes.

On a similar note, communities/companies of interest (for example, scouts/guides, or groups focusing on a particular condition) have also tried to apply to it. As an entire geographical community needs to be benefit from it, communities/companies of interests cannot apply to Growing Community Assets.

### **Investing in Ideas**

BIG have revised their priorities for what they can consider for funding. We will prioritise applications from organisations with an income of less than £250,000 and for projects that will be delivered

in areas within the 15% most deprived according to the Scottish Index of Multiple Deprivation.

For projects that have a heritage, arts or sports focus you may wish to consider funding from other sources. These types of projects are likely to have a weaker fit with the Investing in Ideas programme outcomes.

Also, a decision for a completed Investing in Ideas application should be back to six weeks again.

### **Young Start**

Over the past two months, they've started to get an increase in applications to Young Start. It's a bit too early to know if this will continue. Nonetheless, if anyone is applying, their application should be very strong, especially around an outcome and young people's involvement.

Customer experience feedback on the new Awards for All application

For anyone applying to Awards for All they've been using a survey for feedback on the new materials. They had 195 responses from this. The results have been very positive in all areas. Most applicants rated all areas of the application form and guidance as 10 out of 10.

When compared to a previous survey of Awards for All applicants, all ratings had increased. The greatest improvements were in relation to:

- customers' understanding of how applications were assessed
- customers' understanding what the programme was targeting
- customers' understanding the purpose of questions and what information they should provide

We asked a couple of specific questions to applicants that had previously applied to Awards for All. This required them to compare their experience and again results are very positive with:

- over 75% of applicants said the form was easier to complete than the previous version and 16% said it was about the same
- 66% said it took less time to complete the application and 25% said it was about the same

In addition, over 95% of customers said having the guidance and application form together was very useful. 90% said it was very easy to cross refer between the question and guidance parts of the form.

As there is a clearer understanding from applicants on how they assess applications, the need for scoring guidance on our website is no longer necessary.

#### Tips on applying

Please see BIG's Alastair Jackson's blog on the website – link below – which has very useful information on faith-based organisations applying to them.

Further information, guidance and application forms are also available to download from the BIG Lottery website.

## Information

**COMMUNITY SHARES SCOTLAND**

Crowdfunding offers both commercial and non-commercial ventures the opportunity to raise a sum of money by offering shares to people who put forward small amounts of money. Community Shares Scotland connects not-for-profit groups and investors looking to provide money for social good. People buying shares in the projects promoted through the site will recoup their investment through improvements to their community rather than profit. Social businesses can offer interest to be paid on the shares if the profit from trading is sufficient.

Community Shares Scotland hopes it can provide organisations such as community groups looking to save a local shop or start a local food scheme with access to funds.

The programme is scheduled to run for three years and its partners include the Plunkett Foundation, Co-ops UK and Rocket Science. It is funded by the Big Lottery Fund and Carnegie UK Trust through an award of £800,000.

A series of Community Shares Scotland road shows will take place across Scotland providing local groups with more information about how to get involved. Although dates have not been released yet, information will be available from their website when they are.

## RESOURCE EFFICIENT SCOTLAND

This scheme is a Scottish Government funded programme delivered by Zero Waste Scotland. It works to engage Scottish business, the public sector including local authorities and housing associations and third sector organisations on the benefits of using resources more efficiently and to help them implement resource efficiency actions within their organisation.

There are three main elements to the programme:

### 1. Advice and support service:

(Tel: 0808 808 2268) this service provides free advice, support, training and access to funding to help organisations implement resource efficiency measures.

### 2. Sector Programmes:

These programmes provide a strategic sector focused approach with activities tailored around specific resource-use 'hotspots'

### 3. Innovation:

This area of work involves the development of new resource efficient products and technologies, business models, working practices and de-centralised renewable energy infrastructure – providing solutions for the sector support and advice services.

Support for local authorities is provided through one of the sector programmes.

### BIG DIRECTORY OF SOCIAL INVESTMENT

Social investment is a term used to describe many different forms of finance – like loans, bonds and equity – all of which involve some kind of financial return to the investor, as well as helping to achieve social impact.

The Big Lottery Fund achieves its mission of bringing improvements to communities and people most in need primarily through making grants. But they recognise that there are circumstances when social investment can be the right path to growth and sustainability for third sector organisations.

This directory aims to provide a single source of information that third sectors organisations in Scotland can use to find out what sorts of social investment finance are available to support their social enterprise activities and aspirations.

The Foundation allocates approximately £30 million per annum. There are no minimum or maximum levels of grant that can be applied for and the size of the grants varies greatly across different programme areas.

Applications are accepted from organisations and educational establishments in the UK which are registered charities or which have charitable status, these include:

- Schools.

Key criteria used by Trustees to assess applications include:

- Excellence of the organisation.
- Anticipated outcome of the project.
- Financial viability.

Grants are given to act as a catalyst to lever additional funding and to back excellence and talent. Grants are usually only made for capital projects i.e. new buildings, renovation and equipment.

The Foundation advises applicants to check the Foundation's website before making an application. The Foundation operates a two stage application process.

The aim of the first stage is to determine whether a project is eligible and this should be submitted online through the Wolfson Foundation website. Stage 2 applications are submitted in written format and once received, applications are considered by expert

reviewers and a specialist panel who make recommendations to the full Board of Trustees.

Please note there may be a cap on the number of applications that are invited for each funding round, therefore, applicants are advised to submit an application well in advance of the Stage 1 deadline dates. Applications received before the Stage 1 deadline may be deferred until a later funding round if the current one is over-subscribed.

Further information and guidance is available by contacting Paul Ramsbottom, Wolfson Foundation, 8 Queen Anne Street, London, W1M 9LD, Tel: 0207 323 5730 or visit their website via the link below.

**The deadline for receipt of stage 1 applications is: 5 January (for a June decision) and 1 July (for a December decision). For Schools, Stage 1 applications should be submitted by: 30 November and 15 April each year.**

### NATIONAL EVENTS PROGRAMME (SCOTLAND)

This scheme aims to coordinate, support, lead and fund events of all sizes across Scotland through two complementary funding programmes: The International Events Programme and the National Events Programme.

By working with local and national government and agencies in tourism, sport, culture and economic development, EventScotland works to attract, create, grow and develop events. Through strategic investment in events, EventScotland hopes to build Scotland's reputation as the 'Perfect Stage' for events.

The aims and objectives of the National Events Programme will be similar to the Regional Events Programme in that it will support the strategic development of events, outwith Edinburgh and Glasgow, which drive domestic tourism for Scotland and showcase specific towns and regions across the country.

The National Events Programme supports events which:

- Generate economic benefits for specific regions of Scotland.
- Attract visitors to specific regions of Scotland from other parts of the country and beyond.
- Enhance the profile and appeal of the host region.
- Inspire and involve local communities.
- Have measurable outcomes.

The minimum award available is £4,000 and the maximum £25,000, up to 25% of the total event budget. Events can receive up to three years of funding in total but must submit a new application for each request.

However it is strongly recommended that all applicants contact the EventScotland event management team on: 0131 472 2313 to discuss their application well in advance.

**The deadline for receipt of applications to round 29 is 6 February 2015.**

## Children/Youth/Young People

### KELLY FAMILY CHARITABLE TRUST

This scheme makes provides grants ranging between £1,000 and £5,000 for UK charities whose activities nurture and support family life. Applicants are expected to show what other sources of funding have been sought and secured.

The trust actively encourages applications from relatively new organisations to help them become established; and will consider both capital and revenue grants including requests for core funding as well as project-based grants. However it prefers to support charities whose income is below £5000, 000, although larger charities with pioneering pilot projects will be considered.

Successful applicants will be asked to provide a report on progress and the effective use of the grant during the funding year. The trust may consider repeat funding requests on receipt of satisfactory progress reports. Funding is available for charities whose activities involve all or most family members in initiatives that support and encourage the family to work as a cohesive unit in tackling problems that face one or more of its members. The overall objective is to reinforce the potential benefit and support that family members as a unit can give to each other. The three principal areas that the charity wishes to support are:

- Interventions and support that help families to manage better and prevent the fracture of the family unit, eg Homestart, relationship counseling, mediation.

- Families where sexual abuse, physical abuse, domestic violence, alcohol abuse and drugs abuse threaten the integrity of the family unit.
- Prisoners and in particular their families, during and after the period of imprisonment.

Applications are also welcomed from sports and health-related charities whose activities comply with the above criteria.

## Community Development

### GALAXY HOT CHOCOLATE FUND 2014

This scheme aims to provide small, one-off grants for individuals and community groups whose projects focus on sporting and leisure activities and community improvement.

Each week, five awards of £300 will be given out to individuals and groups to support a wide variety of “warm hearted” projects run by local community groups across the UK and Ireland.

One of these awards will go to the project receiving the most public votes each week, while the other four will be selected by a panel of judges who will judge each entry (and use of an award) on:

- The extent to which the proposed initiative will help the local community.

- The extent of the proposed initiative’s reach.
- The perceived local need for such hobbies, sporting or leisure activities.

A complete list of successful applications to date can be found on the website.

Each winner receives £300 to pay for costs associated with eligible projects. There will be five winners each week across 16 weeks – 80 winners in total. Match funding is not required.

A maximum of one application per community group, school group and/or charity organisations in the UK and Ireland is permitted. However the promoter reserves the right to disqualify any Application for which multiple votes have been submitted by the applicant or any other individual(s) associated with that applicant in any week.

Employees of the Promoter, their families, agents and anyone else professionally connected with the promotion are not eligible to apply.

**Applications may be submitted at any time until 11.59pm on 22 February 2015.**

### LINTELTRUST GRANTS PROGRAMME

This scheme awards grants for housing-related projects in Scotland that help people to live as independently as possible in their own homes and communities.

Grants of up to £2,000 are available, usually as one-off pieces of funding; however interest free loans and advice on funding possibilities are also available.

Applications are welcomed from the following Scotland based organisations:

- Voluntary organisations or charities.
- Housing associations and cooperatives.
- Other non-profit-making bodies working for charitable purposes.

Please note that all possible sources of statutory funds (ie local authority or central government) must have been explored. Lottery funding should also have been considered if appropriate. As the trust is extremely unlikely to fully fund a request as applicants are encouraged to apply for other funding or for matched funding.

Organisations should have established an equal opportunities policy, and should be monitoring its efficiency. If a formal policy is not in place, organisations must be aware of and be working towards best practice in this area.

Applicants are encouraged to telephone the administrator beforehand for a general discussion.

**The deadlines for applications are two weeks before the Trustees’**

**Meetings which are scheduled for the first Friday in March, June, September and December.**

### **WEIR CHARITABLE TRUST**

This scheme makes grants available to groups and individuals in Scotland for activities in the categories of Sport; Recreational Facilities; Animal Welfare; Health; and Culture. No minimum or maximum value of grant is specified. Applicants are encouraged to ask for what they need for their project or activity.

Applications are accepted from individuals, groups and charities that are:

- Based in Scotland providing services in Scotland.
- Struggling to secure funds through mainstream funders or who have unsuccessfully explored all the statutory sources of funding.

All awards are for one year or less. Successful applicants must wait a calendar year before reapplying for further funding for the same activity. However, applications for further funding within that period may be made if it is not to be used for the same purpose as the original application.

The Trust reserves the right to award grants in full or in part depending on its assessment of the merits of the application.

Successful applicants will be required to submit a short report summarising what has been achieved the end of the year or project. This will allow the Trust to ensure that its funding is making a difference. In the event of further funding being sought, it may also help to assess whether that is given or not.

### **B&Q – WASTE DONATION SCHEME**

B&Q, through its UK and Republic of Ireland stores, donates unsalable products to community groups, charities and schools for projects that will benefit the local community.

B&Q operates the Waste Donation Scheme through all of its stores. B&Q donates unsalable products and waste materials for re-use, such as slightly damaged tins of paint, off-cuts of timber, odd rolls of wallpaper, and end-of-range materials.

Community groups, charities and local schools throughout the United Kingdom and Republic of Ireland are eligible to apply. Match funding is not applicable for this scheme.

Groups will need to complete a waste donation form, which is available from the environmental champion, diversity champion, or duty manager in store. Subject to the request being authorised, the school/charity/group will be added to a list of potential recipients.

Applicants are advised to keep in contact with the store to check on availability of materials. Stores may also contact applicants, should appropriate items be available for donation.

## Social Enterprises

### BIG ISSUE INVEST

This scheme's mission is to encourage business-like responses to social problems by strengthening community finance and social enterprise sectors throughout the UK.

Social enterprises are defined as: 'businesses with primarily social objectives, whose surpluses are principally reinvested for that purpose in the business or community, rather than being driven by the need to maximise profits for shareholders and owners'.

Big Issue Invest, through its national remit, internal underwriting and technical expertise, partnerships and networks, is in a unique position to act as a catalyst, broker, financier and technical assistant

to the social enterprise arena. It works with social enterprises and income-generating activities of registered charities.

Big Issue Invest believes that social enterprises need a financial partner that:

- Understands its social business model.
- Has sector expertise.
- Provides larger loan sizes and longer maturities.
- Emphasises underlying cash flows over security when making its decisions and structuring its terms.

Loans of between £50,000 and £1million can be provided.

Organisations requiring more than £250,000 should contact Big Issue Invest to discuss their funding possibilities. Grants are not provided.

The Loan Fund is open to established social enterprises or trading arms of registered charities based in the UK.

Eligible organisations applying to the Loan Fund must meet the following criteria:

Start-ups will be considered under this fund, but will be subject to further evaluation as they are not the primary focus of the fund.

Full details on the scheme, including terms and conditions, may be downloaded from their website. Although there are no exclusions cited in the guidelines, potential applicants could contact Big Issue Invest prior to making an application to ensure eligibility.

# Trusts

## TUDOR TRUST

This scheme makes funding available for work in the UK that aims to build stronger communities and tries to meet the many different needs of people at the margins of society.

The trust is an independent grant-making charitable trust which supports organisations working across the UK. It funds a wide range of people and organisations working to build stronger communities and also engages with the groups it supports by offering advice and development support where this is needed.

Voluntary and community groups working in any part of the UK are eligible to apply provided they have a constitution and a bank account.

The Trust aims to fund organisations with the following characteristics:

- Organisations working directly with people who are at the margins of society.
- A focus on building stronger communities by overcoming isolation and fragmentation and encouraging inclusion, connection and integration.
- Organisations which are embedded in their community and which can identify and channel the potential within that community – whether the local area or a 'community of interest'.
- Organisations which can demonstrate that they listen to and are responsive to their users.
- Organisations which are thoughtful in their use of resources and which foster community resilience in the face of environmental, economic or social change.

There is no maximum or minimum level of grant and in some situations the Trust may make a loan. Grants can be used for the following:

- Core organisational costs, such as salaries and day-to-day running costs.
- Project grants.
- Capital grants for buildings or equipment.
- Grants to help strengthen the organisation.

Most grants are made over one, two or three years. The Trust understands that tackling deep-rooted problems takes time so funding is sometimes available over a longer period, usually by

making a further grant following on from the original one. However, applicants should be aware that the Trust's funding cannot continue indefinitely.

The Trust is more likely to fund groups with an annual turnover of less than £1 million. However, grants are sometimes made to larger groups, particularly for work which could be influential or which a smaller organisation would not have the capacity to deliver. Larger organisations are advised to contact the Trust before making an application.

Organisations that have previously been refused funding by the Trust should not re-apply until at least 12 months after the date of the refusal letter.

Funding is available for a wide range of people and organisations working to build stronger communities. The Trust does not have specific funding programmes designed to advance a particular agenda as it believes that the groups it supports are best placed to identify problems and develop solutions.

**Applications may be submitted at any time.**

## THE ROZELLE TRUST

This scheme provides financial assistance for charities in Scotland that work to support the poor and disadvantaged in their local communities.

The trust offers grants to registered charities working with the poorest members of their local communities in Scotland or in developing countries overseas. Funding is targeted at smaller charities working at a grass roots level where funding from the Trust will make a significant difference. There is no minimum or maximum grant value and funding will be awarded for project costs only.

Awards will be made to support a wide range of charitable activities but successful applicants should focus on:

- Children and young people.
- People living in poverty (particularly self-sustaining work).
- People with disabilities.

The trustees aim to develop long term links with the organisations funded in order to develop a clear understanding of their objectives, and to measure the outcomes of the funding.

Further information, guidance and application forms are available to download from their website; however applicants are encouraged read through the 'Who We Help' section to ensure that their funding request meets trust's aims.

Applicants must first submit an enquiry form (either electronic or hard copy). If the application is of interest to the trustees, the applicant will be asked to submit a funding application form.

Successful applicants will be required to provide regular feedback to the trustees to monitor the use of funds and measure the success of their activities.
