ASDA COMMUNITY CAPITAL – A NEW FUND IS LAUNCHED

Social Investment Scotland (SIS) has teamed up with Asda to launch a new fund aimed at supporting social enterprises to make the step change they need to increase their impact.

Asda Community Capital will donate the funds arising from the bag charge to support innovative social enterprises and community projects across Scotland. In what is a UK-first, the partnership with SIS will see half of the proceeds distributed through loans, helping third sector organisations who would otherwise find it difficult to get access to funding.

Investment will be available from £10,000 to £50,000 for a period of up to 6 years. Interest will be charged at 5% fixed from year 2 to year 6 (ie for 5 years) however no interest will be charged in year 1. In fact, an investee will not have to pay back anything in year 1 (neither interest nor capital), and no interest will be accrued during this period. Further to this, social enterprises will be able to pay back the loan early, with no penalty, should they be in a position to do so.

The other half of the funds will be donated to Foundation Scotland to be distributed in small grants of up to £2,000. Estimates suggest that single use carrier bag charging by Asda could raise as much as £800,000 in the first year of carrier bag charges being levied.

Kevin McBride, Asda's Regional Operations Manager for Scotland, commented: "At Asda, we want the carrier bag charge to have long-term social as well as environmental benefits. By working with our partners Social Investment Scotland and Foundation Scotland, we have the opportunity to invest innovatively in our local communities, helping to grow the social enterprise sector and supporting local projects in every Asda mile."

Alastair Davis, CEO, Social Investment Scotland, said: "Scotland's third sector has an increasingly crucial role to play in fostering thriving communities through local job creation, community engagement and economic development. Many of the enterprises delivering these benefits frequently struggle to access capital, either as a result of their own investment readiness or the lack of suitable financial products. Through the creation of Asda Community Capital, we'll be able to support the development of highly motivated, small, community-based enterprises throughout Scotland. In turn, we can help to connect more capital with communities, making a real, measurable and sustainable impact on people's lives."

Programme Updates

WELCOME TO THE BIG LOTTERY'S DECEMBER UPDATES

Awards for All

BIG has seen a significant increase in arts organisations, including pipe bands, applying for an arts project. If your project can meet one of Awards for All's outcomes they can consider an application. However, it is likely it will be taken as a weaker outcome and a lower priority for funding and your chances of being successful to Awards for All will be small.

Some schools thought they would be a branch of their local authority, but they will be taken as being independent. All schools applying, including local authority controlled ones, are considered by BIG to be independent, rather than a branch.

Please note that if your group received Celebrate funding for a sports activity, you will not be funded through Awards for All for the same activity again. Therefore if you decide to reapply, the project must be different from your Celebrate project.

Communities and Families Fund

BIG are keen to support applications to their Communities and Families Fund for the rest of this financial year 2014/5. If groups can meet the requirements for applying, there is real potential for receiving funding.

iPads

BIG have asked us to emphasise that whilst iPads are an eligible item for them to fund there has to be a need for them as part of delivering a project. In addition applicants have to demonstrate value-for-money so should consider other options including other (cheaper) tablets to help deliver the project instead?

Investing in Communities (stage one)

Organisations considering an application for land or buildings must complete an options appraisal along with a stage one application form. This relates to Q18b.

Investing in Communities (stage one and stage two)

Please note that the timescale to receive funding for this can take up 9-12 months from first applying (stage one) to receiving funding (after stage two). Whilst BIG understand the need for funding (often urgent) some applicants are not applying far enough in advance.

Young Start

This programme is continuing to receive more good applications than they can fund.

A key issue in some applications has been requests for 'general' salaries such as, for example a Centre Manager. Unfortunately they can only fund a salary if it is essential to the delivery of the project and includes other costs such as activities/equipment; because their view is that a salary on its own cannot fully deliver the project.

Tips on applying

BIG held some Webinars, for their Small Grants (Awards for All, Communities and Families Fund and Investing in Ideas), shortly before Christmas. They proved to be very popular, however if you missed them or want to check anything from them you can view a recording which should be available on their website via the link below.

Funding myths

This month's top myth is:

"Awards for All will pay for an individual to travel abroad"

Please note that this definitely isn't true they cannot pay for individuals, nor can they pay for travel outside the UK.

If you want further information on any of the above please visit the BIG Lottery website via the link below or contact their information team on 0300 123 7110.

Information

COMMUNITY SHARES SCOTLAND

Crowdfunding offers both commercial and non-commercial ventures the opportunity to raise a sum of money by offering shares to people who put forward small amounts of money. Community Shares Scotland connects not-for-profit groups and investors looking to provide money for social good. People buying shares in the projects promoted through the site will recoup their investment through improvements to their community rather than profit. Social businesses can offer interest to be paid on the shares if the profit from trading is sufficient.

Community Shares Scotland hopes it can provide organisations such as community groups looking to save a local shop or start a local food scheme with access to funds.

The programme is scheduled to run for three years and its partners include the Plunkett Foundation, Co-ops UK and Rocket Science. It is funded by the Big Lottery Fund and Carnegie UK Trust through an award of £800,000.

A series of Community Shares Scotland road shows will take place across Scotland providing local groups with more information about how to get involved. Although dates have not been released yet, information will be available from their website when they are.

PEER-TO-PEER MENTORING SCHEME / INSPIRING STUDY VISIT SCHEME

The Plunkett Foundation have secured funds from the Prince's Countryside Fund to deliver a Peer-to-Peer mentoring scheme and an Inspiring Study Visit scheme for Scotland.

This programme gives groups the opportunity to learn from another established shop group. A substantial amount of time is spent discussing the details of community enterprise. In addition a Plunkett mentor or adviser assists the visit and a tour of the shop is generally given and travel expenses are paid.

To find out more contact the Frontline Team on 01993 810730 or email Hannah.barrett@plunkett.co.uk

REDUCE TECHNOLOGY COSTS

Through this programme, eligible UK-based charities are able to request donated technology products from partners such as Microsoft, Symantec and Cisco.

The products include operating system software and server software, security software and hardware products such as switches, routers, wireless equipment and firewalls.

Although there is an administration fee for charities the CTX programme still gives savings of 92-96% on typical retail prices. For further information visit

RESOURCE EFFICIENT SCOTLAND

This scheme is a Scottish Government funded programme delivered by Zero Waste Scotland. It works to engage Scottish business, the public sector including local authorities and housing associations and third sector organisations on the benefits of using resources more efficiently and to help them implement resource efficiency actions within their organisation.

There are three main elements to the programme:

1. Advice and support service:

(Tel: 0808 808 2268) this service provides free advice, support, training and access to funding to help organisations implement resource efficiency measures.

2. Sector Programmes:

These programmes provide a strategic sector focused approach with activities tailored around specific resource-use 'hotspots'

3. Innovation:

This area of work involves the development of new resource efficient products and technologies, business models, working practices and de-centralised renewable energy infrastructure – providing solutions for the sector support and advice services.

Support for local authorities is provided through one of the sector programmes.

For more information contact Warren McIntyre, Programme Area Manager – Public Sector Resource Efficient Scotland, 01786 433930 or email warren.mcintyre@resourceefficientscotland.com

BIG DIRECTORY OF SOCIAL INVESTMENT

Social investment is a term used to describe many different forms of finance – like loans, bonds and equity – all of which involve some kind of financial return to the investor, as well as helping to achieve social impact.

The Big Lottery Fund achieves its mission of bringing improvements to communities and people most in need primarily through making grants. But they recognise that there are circumstances when social investment can be the right path to growth and sustainability for third sector organisations.

This directory aims to provide a single source of information that third sectors organisations in Scotland can use to find out what sorts of social investment finance are available to support their social enterprise activities and aspirations.

New Funding Opportunities

Arts, Culture & Heritage

MUSEUMS GALLERIES SCOTLAND – RECOGNITION SCHEME 2015

The aim of the scheme is to celebrate, promote and invest in the nationally significant museum and gallery collections around Scotland held outside the nationally-run institutions. Funding of up to £60,000 per project is available, to cover 100% of costs.

The scheme applies to collections held within Scottish non-national Accredited or Registered museums and galleries. Applicants must be organisations that manage museums or galleries that are Registered (under Phase 2) or Accredited under the Museums, Libraries and Archive Council's Scheme. The collection should be made publicly available through Accredited or Registered sites, unless there are exceptional circumstances.

The threshold of eligibility is full status, except for those Registered/Accredited under the additional national criteria for which provisional status is acceptable.

Partnership applications are particularly welcomed, and applicants are encouraged to consider how they might add value to their project by collaborating with:

- Other recognised collections.
- Accredited museums and galleries in Scotland that do not hold registered collections.
- Organisations outwith the museum sector with whom the applicant wishes to work for public benefit.

Two applications will be accepted per applicant; however one of these must be for a partnership project.

The Recognition Process requires an organisation to submit an application for the collection they wish to be considered. The application will have to demonstrate that the collection is of such importance and quality that it is worthy of formal recognition as a Recognised Collection of National Significance.

As a secondary requirement, the application must also demonstrate the organisation's commitment to collections management and public services since there is an expectation that those holding such collections will aim for excellence in these areas and that these collections will have a greater impact on people.

Further information and guidance is available from Museums Galleries Scotland website.

The deadlines for receipt of application are 8 May 2015 and 9 October 2015.

Link: <http://www.museumsgalleryscotland.org.uk/funding/recognition-funding/>

MUSEUMS GALLERIES SCOTLAND – SMALL PROJECT FUND

This scheme provides grants of between £500 and £5,000 for Museums Galleries Scotland members, for projects that will improve the quality and capacity of services and meet the cross-cutting themes of business development, audience development and product development. The main objective of the scheme is to help develop museums in Scotland by supporting projects that aim to improve the quality and/or capacity of the service.

Maximum grant will normally cover up to 75% of project costs, to a maximum amount of £5,000. Projects may be funded at more than 75% in exceptional circumstances.

Applicants should be full members of the Museums Galleries Scotland and can include:

- Single museums.
- A museums service.
- Group of museums (which may be grouped only for the duration of the project).
- Museums forum or partnership (which may include non-members, although the MGS member should make the application).

Projects must be completed in the financial year in which funding has been applied for.

Support is available for projects that will develop the provision of the museum service through the improvement of quality or capacity.

The deadlines for receipt of applications are 20 March, 26 June and 11 September 2015.

Children/Youth/Young People

CREATIVE SCOTLAND LAUNCHES FIRST PHASE OF TTS DIGITAL FUND

This scheme aims to inspire digital creativity in young people in Scotland through a series of youth-led projects working with arts organisations in collaboration with technology partners.

The fund is part of 'Time to Shine', Scotland's first national youth arts strategy, which sets out a vision and key recommendations to enable Scotland's children and young people to flourish and achieve, in and through the arts and culture.

The fund is intended to encourage experimentation, test new ways of working, forge new partnerships, unlock potential and share knowledge and enthusiasm across generations and artistic disciplines.

The fund will be delivered in two phases: the first will fund up to 10 pilot projects led by young people of up to £5,000; while the second, to be launched in August 2015, will consist of an open call for larger scale projects, between £50,000 and £100,000, which build on the outcomes of the phase one pilot projects.

Phase one projects must be led by young people and have the aim of encouraging digital creativity. The projects should be facilitated by arts organisations in collaboration with technology partners, where one or both of the partners has a track record of working with young people.

The second phase of the scheme will be open to both successful applicants to phase one of the project as well as new applicants. As in the first phase, projects must be led by young people and facilitated by arts organisations in collaboration with technology partners, where one or both of the partners has a track record of working with young people, and must focus on digital creativity and experimentation.

Fully resolved project ideas are not required for phase one of the scheme – rather the provider is looking for ways of testing a methodology and of working with technology partners, which are led by young people. The results of these projects will be shared with the sector and built on for phase two of the project. The outcomes of these projects could include:

- workshops;
- the testing of new technologies;
- experimenting with new digital languages and channels; or
- the creation of artworks or performances which are a work in progress.

The deadline for applications under the first phase of the scheme is 13 March 2015 (5pm). The second phase will launch in August 2015 with a deadline for applications of 14 September 2015.

Sport

LEGACY 2014: SCOTLAND'S SUSTAINABLE SPORT FOR COMMUNITIES FUND

This scheme seeks to support the sustainability and capacity of aspiring and existing social enterprises delivering sport and physical activity in communities across Scotland. It will run from 2014 to 2016 and is funded by the Scottish Government and the Robertson Trust, each of whom have given £500,000 to the programme.

Funding is available to support clubs and organisations seeking to take on ownership of and/or develop local facilities for use by the local community. Packages of up to £25,000 to support business planning and development support is available to organisations who want to scope out ideas around purchasing, renovating, building from new or enhancing an existing physical asset.

Applications are accepted from newly-formed organisations or those that have been operating for a while; however, it is expected that they will be at an early stage of considering how the development of a facility or asset would enhance their role within their community beyond just increasing participation in sport and developing their ability to trade as a social enterprise. Applicants should also seek to make a wider difference in their community through their work, for example in areas such as health and well-being, employment and education.

An overview of the fund is available via the link below. Once you have read these guidelines, you can contact one of the following officers to obtain an Expression of Interest Form. Closing date for submission of Expression of Interest is 26 February 2015.
