

Research on Ageing

Latest Advances and Future Opportunities

Event Guide:

The Strathclyde Ageing Network is a multidisciplinary group with an interest in research topics that relate to ageing. This event will feature short talks on a variety of topics including cognitive ageing and dementia; recovery of movement after stroke; cognition in Parkinson's disease; and older adults' use of digital technologies. Come along to hear about the latest research and how you can get involved in future research, benefit from the work we do and inform future topics.

Presentations will be followed by interactive demonstrations and a drinks reception where there will be an opportunity to find out how you can get involved with the network.

Venue & Registration:

Tuesday 3rd May 2016
Registration 2.30pm – 3.00pm
Event 3.00pm – 5.30pm

The Technology and Innovation Centre
99 George Street
Glasgow G1 1RD ([map](#))

To register please go to
www.engage.strath.ac.uk/event/280/

Audience:

Anyone interested in learning about ageing-related research and how to get involved in the Strathclyde Ageing Network, particularly:

- Older adult members of the public.
- Providers of healthcare to older adults.
- Those working in ageing-related third sector organisations.
- Local council and public sector staff.
- Academics and researchers interested in ageing.

Benefits of attending:

- Meet researchers actively engaged in the study of ageing.
- Learn about current areas of research and key findings, and learn about how you could contribute to our research activities.
- Explore the opportunities to collaborate with us or benefit from our knowledge and expertise.
