## Evaluations (n=79)

## Themed responses

### *I enjoyed:*

- Spending time with our partner ECC/care home to make plans for improvements
- Meeting other ECC's/care homes and hearing what they do, sharing ideas
- Having the space and time to ask questions and network
- Hearing practical examples of activities which work well
- Learning about the data and how to gather it
- The presentations and video clips

### *It would've been even better if:*

- It was split into East, North and South Ayrshire
- The session was longer with more time to network and make plans
- Different venue – acoustics, size

### *My favourite idea was:*

- Using a smiley face chart to get feedback about each session

- Creating a joint floorbook
- Evaluating every session and sharing the information
- Meeting in a local café
- Bookbug sessions
- Utilising residents' skills and preferences by giving them a role
- Sharing snacks
- Gardening activities
- Sharing photographs, drawing portraits, bringing something special
- Name badges every session
