Generations Working Together are delighted to partner with Food for Life on a new nationwide programme, funded by the Lottery Community Fund. The Food for Life Get Together programme uses good food to bring people of different ages together through growing, cooking and eating. Having the chance to get together, share a fresh, healthy meal and have a chat can really change people’s day to day lives. The aim of the programme is to transform our food culture, unite communities, create meaningful relationships between generations and unlock the power of good food for physical and mental health and wellbeing. Intergenerational housing case studies report provides a digest of 12 case studies of intergenerational housing drawn from the UK and internationally. These provide examples of intergenerational housing that have features and components that are applicable to the Scottish town centre context. This work is in the context of Architecture & Design Scotland’s programme Town Centre Living: A Caring Place4. The intention is to identify examples of intergenerational living and housing that are consistent with the principles of A Caring Place but also to identify the elements of these case studies that can be applicable to achieving these principles in practice.

For info - **The Warwick-Edinburgh Mental Wellbeing Scales** were developed to enable the measuring of mental wellbeing in the general population and the evaluation of projects, programmes and policies which aim to improve mental wellbeing. The 14-item scale WEMWBS has 5 response categories, summed to provide a single score. The items are all worded positively and cover both feeling and functioning aspects of mental wellbeing, thereby making the concept more accessible. The scale has been widely used nationally and internationally for monitoring, evaluating projects and programmes and investigating the determinants of mental wellbeing. WEMWBS is protected by copyright. If you would like to use WEMWBS, you need to register to receive a license for use.

If you represent a not-for-profit organisation (for example public sector, charity, NGOs, government bodies and community interest companies), the scales are available for use by a standard free license. **Local Update**

This was our first-time using video conferencing and it was a great success, we shall continue to offer this service at future meetings so those unable to travel can still join in.
- Bellann reported on the intergenerational work that they were supporting in Stornoway Primary. The clip below was shared on the VCWI Facebook page in December and is definitely worth a watch: [https://www.facebook.com/109240205826891/videos/pcb.2601326073284946/442858963059572/?type=3&theater](https://www.facebook.com/109240205826891/videos/pcb.2601326073284946/442858963059572/?type=3&theater)
• Kate highlighted the work in Sir E Scott School with P6’s going into Harris House to do armchair aerobics.

• The care home in Barra receive weekly visits from their local nursery. The North and South Uists nurseries are also visiting care homes. Marion agreed to do a blog for the GWT website (Alison to get in touch) and we found the following clips on Facebook which we think are worth looking at:
